AUTHORIZING RESOLUTION

concerning

Establishing the Position of State College Supervisor of
Community Education at Eastern Connecticut State College

November 1, 1968

Explanation: Eastern Connecticut State College is developing a Community Education Program and a Community School. Two professional staff members are currently assigned full-time to the program to develop and supervise the activities both on-campus and off-campus; to arrange classes, teachers, facilities, and generally to work with community groups and agencies in the development of programs that take place during days and evenings throughout the year. The position recommended in the resolution below is created to include the two Community School Education Supervisors. Because the Community Education Program is new and currently under initial development, it is recommended that the position be approved for three years, and that at the end of three years it be reviewed for conformance with needs of the program; and that the position then be continued or modified accordingly.

RESOLVED, That the unclassified position of State College Supervisor of Community Education (Salary Group 23) be approved for Eastern Connecticut State College, effective December 1, 1968, with the understanding that it be reviewed by the Board of Trustees not later than three years from the effective date.
