Dear Dr. Haas:

As per our telephone conversation, the enclosed map shows the area where children are now playing which we propose for a mini park.

The City would like permission to make this area playable by putting in a Little League diamond. It would be considered a neighborhood play area for the children. Our Parks and Recreation Department is covered with blanket insurance.

If Wesconn or the State, in the future, deems it necessary to take this land there would be no question on our part of relinquishing the area. It is of a temporary nature. I hope you can concur on this proposition.

Sincerely yours,

Charles A. Ducibella
Mayor of the City of Danbury

My dear Attorney General:

The Mayor of the City of Danbury has requested permission to use, on a temporary basis, about two acres of land on the site of the College's proposed new campus. A copy of his letter is attached.

The area which is indicated on the partial map attached is not reserved for immediate building construction. It is part of the section of the campus which will ultimately be used for outdoor physical education facilities according to the Master Plan.

The City has always been most cooperative in extending to the College the use of City facilities such as the City playing field now used each season by the College's football teams. Therefore, it would be fitting if this request of the City's could be granted. The College recommends that the City of Danbury be permitted temporary use of the area as requested to be terminated at the pleasure of the State when advancing construction will place demands on the space.

Very sincerely yours,

Dr. Ruth A. Haas
President
