Dr. James A. Frost, Chief Executive Officer  
Board of Trustees for State Colleges  
Central Connecticut State College  
New Britain, Connecticut 06050

Dear Jim:

As discussed at the recent meeting of the Council of Presidents, I am sending you a copy of a proposed resolution for presentation to the appropriate committee of the Board and for action by the Board of Trustees. You may remember I raised the concern about the procedure we have been following at Central for the past five years on waiver of tuition and fees for patients from the New Britain Memorial Hospital. When this matter came to my attention some years ago Clete and I worked out a procedure whereby we could allow the handicapped students to pursue their education at Central. I have discussed this matter recently with Clete in view of the auditors' report on Central and we both feel that Board action is necessary if we are to continue this practice.

Attached is a proposed resolution that might be submitted to the Board.

I have been very pleased that Central can provide the opportunities for permanently handicapped students to pursue their education. We have been delighted to have several such students graduate from the college and seek gainful employment in spite of their handicap.

I might also indicate I have had a recent request for a waiver of tuition from the Bureau of Rehabilitation Services of the State Department of Education. The request is for persons of similar physical disabilities to those at New Britain Memorial Hospital. The case presented is of a young woman who would require care such as that provided

at New Britain Memorial Hospital except she has an attendant living with her who is providing care. If appropriate, perhaps authority could be granted for waiver of tuition for cases such as that, also.

I will certainly be glad to discuss this further with you if you or the Board need further information for clarification.

With best wishes,

Cordially,

F. Don James  
President
