

RESOLUTION

approving

The Continued Planning for a Magnet School
to be Constructed at the Present Location of Arute Field
at Central Connecticut State University

April 8, 1994

- WHEREAS, Central Connecticut State University together with the Capitol Region Education Council (CREC) and five local Boards of Education (New Britain, Farmington, Plainville, Southington and Newington) have been investigating the development of an Early Childhood Center since 1989, and
- WHEREAS, The Connecticut General Assembly during the 1992-1993 session enacted legislation calling for the creation of collaborative plans to provide quality integrated educational opportunities in the State of Connecticut, and
- WHEREAS, Pursuant to Sections 5 and 6 of Special Act No. 93-21, CREC may apply for and receive grants for a facility for an Early Childhood Regional Educational Center Magnet School, and
- WHEREAS, The development of a magnet school program is consistent with the historic mission of the Connecticut State University in teacher training and improvement of public educations, and
- WHEREAS, The magnet school project provides an opportunity for Central Connecticut State University to help the state overcome the challenges it faces both locally and regionally in the area of quality integrated education, and
- WHEREAS, Central Connecticut State University is committed to developing acceptable alternatives for the athletic programs prior to finalizing plans to use land currently being used for athletic purposes, and
- WHEREAS, The site chosen for the magnet school is in the area of Arute Field on Central Connecticut State University's main campus, and
- WHEREAS, Final plans and recommendations for the construction and operations of this facility will be brought before the Board prior to implementation, therefore be it
- RESOLVED, That the Board of Trustees for the Connecticut State University system approve the continued planning for the construction of a magnet school at Central Connecticut State University in the area of Arute Field.
